Sean O’Kane - Architect

This charming Branford Shingle Style cottage is designed with mansard roof, matching gables and inset windows.

The front door is custom made from 200 year old oak. The main stairway with hand made twisted ballusters is decorated with paneled walls and columned arch. Treads are antique oak, as are the wide plank floors. The cozy living room is exquisitely detailed with paneled ceiling as is a Gothic style family room with French limestone fireplace and built-ins decorated with Gothic columns and capitals.
